SUMMARY

Software Engineering student skilled in Python, C++, JavaScript, SQL, REST APIs, with hands-on experience in front-end development and database systems. Solved 100+ LeetCode problems with strong problem-solving and software development skills. Seeking an internship as a Software Engineer.

EXPERIENCE

Software Quality Engineering

Big Brains

July 2026 – August 2026, Remote

- Gain hands-on experience in manual testing, functional testing, authentication, form validation, UI/UX, mobile app, and video streaming testing.
- Developed practical skills in **test case design, bug identification and reporting, security testing fundamentals, and quality assurance practices** throughout the software testing lifecycle.

Front End Developer

Arch Technologies

April 2026 – May 2026, Remote

- Developed front-end features for internal web applications using HTML5, CSS3, and JavaScript.
- Prepared technical documentation and user guides to support project handover and maintenance.

PROJECT

Customer Churn Prediction System

github.com/awaismumtaz1406/customer-churn-prediction-System.git

- Built an end-to-end ML pipeline using a telecom dataset of 7,043 customers to predict churn.
- Performed preprocessing including missing value handling, encoding, and feature normalization.
- Trained Logistic Regression and KNN models using Accuracy, Precision, Recall, F1-Score, and Confusion Matrix evaluation.
- Achieved nearly 80% accuracy and identified churn indicators including tenure, contract type, and monthly charges.

Fitness Coaching Application

github.com/awaismumtaz1406/fitness-app.git

- Developed a full-stack desktop fitness application using Python, Tkinter, and MySQL.
- Implemented SHA-256 password hashing, secure authentication, CRUD operations, and persistent storage.
- Designed database schema and built features for workout tracking, calorie monitoring, and diet recommendations.

EDUCATION

Bachelor of Science in Software Engineering

University of Management and Technology • Lahore, Pakistan • 2027

- CGPA: 3.5

CERTIFICATIONS

Devsinc Campus Ambassador

Devsinc • 2026

- Promoted Devsinc outreach and student engagement at UMT.

CS50x

Harvard University • 2026

- Completed 10 problem sets and final project

SKILLS

Languages: C++, Python, JavaScript

Frameworks: Bootstrap, REST APIs, WordPress

Databases: MySQL, MongoDB

Version Control & Environments : Git, GitHub, Docker
